THE EMIGRATION BILL.

The future greatness of the Argentine Republic depends upon emigration from Europe. This none will deny, since all will acknowledge that the great advance of the country in the last ten years, its increased production and wealth, are effects of the steady current of emigration from the Mediterranean. The history of the past few years shews that the current was strongest when the prosperity of the Plate was greatest. If the country is far ahead of all other South American States in expansion, progress and prosperity, it is because it absorbs a much greater current of emigration. Three hundred thousand emigrants have arrived in the last six years; no other country in South America can shew figures approaching these. No wonder Argentines are leaving their neighbors behind in the race for progress and greatness.

Since the current of emigration to these shores is the key-note of Argentine advance, and this advance is proportionate to the numbers of new arrivals, it is the most logical policy possible that the Government should endeavor to swell these numbers. President Roca, in his message to Congress, pointed to the great expediency of fostering emigration by assisted passages from Europe. Nobody, indeed, anticipated that opposition could be raised against such a progressive policy, which not only promised to strengthen the foundations of the country's greatness but in fact was much called for in view of the unprecedented demand for hands in the labour market for the last two years, a demand which has escaped the notice of none, and has been the subject of much remark not only here in B. Aires but throughout the Interior.

The great public works of the country absorb the labour of thousands of workmen; on the national railways alone the navvies at work are more numerous than the troops of the line. The demand for labour this season has been so strong that men got three dollars per diem on the farms; many abandoned the Government works to reap the harvest in this province and in Santa Fe, but the production of the soil was too much for the men, and thousands of acres of grain were lost in consequence. Thus the policy advocated by the President in his message consulted the immediate wants of the nation.

One of the first bills presented to Congress was to vote 600,000m/n to pay for assisted passages. The bill is at present before the House, and several colleagues have already opened fire on it, rejecting the idea of assisted emigration "in toto." We for our part think that in a country where the principal want is bone and sinew, no efforts should be spared to attract emigration. It has been shewn already that the emigration pouring into the country is insufficient to meet our immediate wants, and that any increase in the current to these shores would remove in more or less proportion the difficulties in the labour market; any scheme, therefore, whether proposed by Government or private capital, with a view to assist emigration is worthy of consideration. Under the circumstances no objections can be raised against the principle, whatever opposition may be made to the shape given to same.

The Emigration Bill is excellent as far as intentions go. Deputy Lahitte has had an excellent thought in bringing the matter before the House, but he has failed in presenting a complete bill. The sum of 600,000m/n is altogether too small for the purpose; six millions would be a more approximate figure to assist emigration to these shores. The expenditure of the Government would be nominal, since the bulk of this amount would be returned to the Treasury.

The chief aim of this Bill is to promote emigration from the North and Central Europe; the country already can count on an increasing stream from Italy, where the Argentine Republic is favorably known to the millions of relatives of thriving Italians settled here. But up to the present the attractions of this country have not been powerful enough to create a current of emigration from Great Britain or Germany. The Government will, therefore, apply the funds voted to attracting Britons and Germans; the Executive enjoys by the Bill the immense advantage of "selection." Thus all may rest assured that the very best class of poor emigrants will be selected for the purpose. It remains to be seen only if money can persuade northern emigrants to abandon their homes for a clime where differences of religion and of language form such a powerful barrier to any steady current of emigration.

The current of emigration to this country for the current year we calculate at one hundred thousand souls; but all these come from sunny Italy; a slight mixture of northern blood in this current would be most desirable, especially for colonization of the southern parts of the Argentine Republic. The Government, we think, can achieve this by the new Bill and by land grants on the banks of the Rio Negro, where nature and climate are suited to the northern temperament. As yet the discussion of the Bill is embryonic, and we reserve further remarks for another occasion.

SPORTING INTELLIGENCE.

The programme of the last Autumn Meeting given by the Jockey Club was greatly more attractive than the two former ones, and had given rise to a vast deal of speculation, as proved by the crowded 'remates' that were held during the previous week at the Jockey Club, The Turf agency and other places. The day was lovely, and the Grand Stand was crowded to excess. We remarked that several ladies graced it with their presence. Luck favoured Col. Bosch's stable, and he won three out of the six races. Two went to Dr. Luro's stable and the remaining one to Mr. Muzzio. The victory of Semiramis was due to a casualty. At starting the jockey of Santa Rita hung back and the other five fillies made a start, resulting in Dichosa and Rosie bolting away with their riders, who could not pull them up until they had gone the whole round. They were thu. completely pumped out and Semiras mis had an easy victory. The race of the colts was to most people a surprise, as Pegaso was made a hot favourite, and was coming in ahead. when just in front of the stand, Pregonero made a rush, and was able to win the race by a head.

The most interesting race was the last when the now celebrated Sam Weller had to joined issue with Nana and Pihuen. The extra weight that he had to carry proved too much for him in so long a race, and contrary to the opinion of knowing ones he was beaten. There is no use crying over spilt milk, and we hope the next time he makes his appearance in public, to see him retrieve his laurels. It may be that the opportunity will soon come, as we understand there is to be a race meeting at Lanus on the 24th of next month. The following are the details of Thursday's racing.

1st Race—Handicap for all horses. Premium 500 $ m/n. Entry 40 $m/n. 1000 metres.

F. B. Bosch's Gladiador, b. c. 145 lbs. Porteño and Bertha 1
Stud Buenos Aires' Diana br. f., 110 lbs .. 2
Stud Belgrano's Bird, b. c. 116 lbs 3
S. Romero's Guerrero, br. c., 127 lbs.

The betting was all in favor of Gladiador on whom 3 and 4 to 1 was given. He took the lead from the first and won with the greatest of ease by a length. Time 1.4. Sport gave 2.36.

2nd Race—For 3 year old half-bred fillies. Premium 500 $ m/c. Entry 50m/n. 1200 metres. Weight 48 kilos, Winners of Criadores and Iluon 3 kilos more.

F B Bosch's Semiramis, b.f. 51 kilos, Sutherland y Lora 1
Stud Nacional, Amalia, br. f. 48 do 2
Stud B. Aires Sta. Rita, v. f. 48 do 3
F B Bosch's Amalthée, r. f. 48 do.
E Casey's Dichosa, ch. f. 51 do.
Stud Belgrano' Rosie, b.f. 48 do.

The betting was even on Dichosa—5 to 2 against Rosie, 3 to 1 against Semiramis, 8 to 1 against Sta. Rita and 20 to 1 against the others. There was a false start and Dichosa and Rosie ran away with their jockeys, who could not pull them up before they had completed the whole round. When they did get off Semiramis took the lead and kept it although at the end Amalia made an unsuccessful effort to pass her; won by a length. Time 1.21. Sport gave 7.53.

3rd Race Handicap—For all horses. Premium 500$ m/n. Entry 50 m/n. 1750 metres.

E Muzzio's Terminacion, b.c. 130 lbs. Porteño y Mestiza 1
Stud Sta Teresa's Araucano, br. c. 115 do. 2

There was no betting on this race and Terminacion won in the easiest of canters. Time 2.4. Sport gave 2.38.

4th Race—For three year colts. Premium 500 $m/n. Entry 50 $m/n. 1200 metres. Weight 48 kilos.

Stud Santa Teresa's Pregonero, b. c. Fedor and Alcaira.
Stud Nacional's Bul-Bul, br. c. Dead heat.
F. B. Bosch, Pegaso, br. c. Dead heat.
Stud Buenos Aires, Souvenir, br. c.
Id Don Rafael, br. c.
M. H. Alfonso's Liebre.
F. B. Bosch's Sapho.

The Race—The betting was even on Pegaso, 4 to 1 against Pregonero, Liebre and Bul-Bul, 6 to 1 against Sapho and Don Rafael, 12 to 1 against Souvenir. Pegaso and Don Rafael took the lead, the rest following at some distance. At the turn Bul-Bul took second place and Pegaso looked an easy winner, when just in front of the Stand, Pregonero made a rush and passed him, winning by a neck. Pegaso and Bul-Bul were declared dead heat, although from the stand it appeared that Bul-Bul had the advantage. Time 1.15. Sport gave 8.62.

5th. Race—For three year thoroughbred colts and fillies, Premium 800 $m/c. to the first, 200 to the second and the third saves his stake. Entry 60$ m/n., 1200 metres. Weight for colts 48 kilos, for fillies 46 kilos.

Ecurie Prisonero's Smirna, br. f. Suther land and Eve 1
Stud Santa Teresa's Clementina, ch. f. 2
Stud Belgrano, Rosita, b. f. 3
Stud San Jose, 1er Argentino, ch. c.

The Race—Clementina was favorite, and 1r. Argentino was also in favor, but after a good race Smirna won by 2 lengths. Time 1.21. Sport gave 6.74.

6th Race—Handicap for four years old horses. Premium 1000 m/n. Entry 80 m/n. 3500 metres.

J. B. Bosch's Nana, ch. f., 120 lbs. Altire and Cora Pearl 1
Ecurie Prisonero's Balaklava, br. c. 110 lbs 2
F. B. Bosch's Pihuen, b.c., 112 lbs 3
E. Casey's Sam Weller, ch. c. 130 lbs.
Stud Buenos Aires, Glicina, br. f. 110 lbs.

Betting even on Sam Weller, 3 to 2 against Pihuen and Nana, 10 to 1 against Balaklava and 20 to 1 against Glicina. At the start Nana made a rush for the lead but soon fell back when Sam Weller and Pihuen disputed the leadership, at the round and three quarters Sam Welle was beaten and Nana came in followed closely by Balaklava winning by half a length. Time 4.9. Sport gave 4.46.

THE CENTRAL ARGENTINE RAILWAY.

At foot we publish an important letter from Mr. Fisher, Manager of the Central Argentine Railway, to the Minister of the Interior. The contents shew the great desire of the Company to keep on good terms with the Government and their steady efforts to increase the rolling stock of the line, in order to meet the increased demands of traffic on same. Some light is also thrown on the negotiations which the Company opened about a year ago, with a view of setting the guarantee grant of the Government. In view of the rumors spread with regard to the expropriation of the line, both here and in London, it is interesting to watch the change in the line of conduct of the Company. The present proposal is to pay the Government in full all the guarantee disbursements and to disengage the company from the contract which accompanied the concession of the guarantee. The Company would be then placed in a far better position, and money could be more easily raised in the London market to increase rolling-stock, lay down a double track and carry out further improvements much needed at present. It is to be hoped for the sake of the company and of the shareholders that the Government will grant the request, but to judge by the feeling in Congress and by the policy of the last few years, there are few probabilities of such a very satisfactory arrangement being carried out:—

Rosario May 8th. 1884

To H. E. the Minister of the Interior.

Your Excellency's telegram of the 2nd. was duly received here and forwarded to me in Buenos Aires, where I was on the following day. I immediately called at the Department, but was not fortunate enough to see Your Excellency.

Respecting the forwarding of materials for the railways, I think this Company has carried every thing that was asked of it, except during the last three or four weeks, in which I was asked by the Director of the Engineers Department to do all I could to forward materials to finish the Andine line to Mendoza.

I obeyed this order strictly, and the last consignment for the Mendoza line reached Villa Maria on the 30th. ult. when, Sr. Villanueva not having means to send it to its destination, I lent him our best locomotive, the Irigoyen, with its men, to take the materials from Villa Maria to Villa Mercedes.

As to the supposed want of rolling-stock, we have enough for all our traffic, and even to help the National Railways. From May 1st to date the Central waggons have carried the following for the National Railways:—

Goods for Andine Line.

Date	On Andine Line	At Villa Maria Station
1st of May..	50 wags. C.A.	16 wags. C.A.
2nd do....	63 do.	5 do.
3rd do....	63 do.	9 do.
4th do....	62 do.	11 do.
5th do....	69 do.	1 do.
6th do....	70 do.	2 do.
7th do....	69 do.	17 do.

The following waggons were detained at Cordoba Station to unload:—

1st of May........	54 waggons central laden	
2nd do..........	51	do.
3rd do..........	47	do.
5th do..........	46	do.
6th do..........	50	do.
7th do..........	40	do.

In addition to these loaded waggons in Cordoba, the sheds and platforms there are crowded with goods for the Northern line; while in Rosario there is an immense agglomeratinn of goods for the Andine line, retained there by order of the manager of that railway.

I beg leave to enclose a copy of a note that I wrote to Mr White on the 1st inst., explaining the state of affairs up to that date. In this confidential communication I entered into these details, to prove that the Administration of the Central Argentine Railway has done its duty, and, although very much pressed by the unforeseen increase of traffic, did everything in its power, not only for its own line but to help the neighbouring lines. I shortly expect the remainder of the eight passenger locomotives contracted for, as well as the first class passenger cars. In addition, I have to-day asked in England for more rolling stock, viz, eight passenger locomotives and twelve first-class cars.

There is reason for alluding to the surprising receipts of the Central Argentine Railway, although they are not for the railway, or its shareholders, but for the Government of the Nation. The shareholders can only get 6 per cent yearly until the Government is repaid what it advanced as guarantee; and Y. E. is well aware that, for the last two years, the Company has made every effort to arrive at an arrangement with the Government to cancel the debt, and that it has now proposed not only to pay off the Government in full, but to make valuable concessions, without any equivalent whatever, asking only to be allowed to pay what it owes, with the sole object of placing itself in a position to raise more capital to build new stations, improve the present ones, lay a double line to whatever point may be necessary, and carry out all the improvements that may be required for developing the traffic and perfecting the line.

Hoping that the explanations I have given will be more than sufficient to prove the efforts this Company has always made to comply with its obligations,

I have the honour to assure Y. E. of my highest consideration, and am

Y. E's very obedient servant

Henry Fisher.

GREAT SOUTHERN RAILWAY.

PRESENTATION TO MR. W. C. HUXTABLE.

On Tuesday 20th inst., a deputation composed of Messrs. R. Bradley, R. Cutó and J. T. Ramsay, in representation of the consignees of produce dealing in the market at Plaza Constitucion, waited on Mr. W. C. Huxtable at his office, and presented him with a handsome testimonial comprising a caraffe, goblets and salver, accompanied by a written address which we append hereto.

Mr. Ramsay, on presenting the testimonial, adverted in suitable terms to the high esteem and appreciation in which Mr. Huxtable was held by the 'consignatarios', on account of the admirable manner in which he had conducted the affairs of the cargo department of the railway during his administration of it, and also to the unvarying politeness and attention which he had displayed when any complaints or suggestions had been made to him.

Mr. Huxtable, having thanked the deputation, requested the members of same to convey to the donors of the testimonial the expression of the deep sense of gratification he felt at having been made the object of such a spontaneous demonstration of regard on their part, and that he was certain that they would find in his successor the same desire that he had endeavoured to carry out, viz, while watching carefully over the interests of the company, to endeavour to give satisfaction to the public, and he was happy to see that his efforts in this direction had not miscarried.

The deputation then withdrew.

The following is the address:—

To Mr. W. C. Huxtable.
Goods Traffic Manager.
Great Southern Railway.

The news that you are about to leave your present post, to occupy another on this railway, has taken us by surprise.

All of us engaged in the produce business who have to do with the office you are about to leave, are bound to feel grateful to you for the rectitude and tact which, as its Chief, you have always displayed in smoothing difficulties and rendering easy the transaction of all business with you.

In saying farewell to such an upright and zealous employé, who, while zealously guarding the interests of the Company, succeeded in winning the good will of all who came across him, we wish him every success in his new post, and take the liberty of presenting to him a trifling gift which we hope he will accept as a token of our decided support and esteem for him personally.

Diego T. Ramsay.

We beg heartily to congratulate Mr. Huxtable on the foregoing recognition of his business like habits and urbanity, and he may well feel proud of having elicited it from such a cosmopolitan body as the *consignatarios* of produce, men gathered together from every clime under the sun, and whose keenness of perception is sharpened, by daily intercourse with buyers from the leading marts of the world.

THE ENGLISH LITERARY SOCIETY.

Mr. W. H. Denstone delivered a very able paper at the Rooms of the Society on Wednesday last, his subject being "The Art of Reading and Speaking."

The paper occupied one hour and three quarters in its delivery, and we must say we have never heard any lecturer at the Literary Society who showed himself so thoroughly acquainted with his subject as Mr. Denstone. He positively frightened many of the accomplished scientific and literary gentlemen amongst the audience, by demonstrating so clearly how wrong meanings could be easily conveyed by error in laying stress on words, or in proper pause in Reading and Speaking being overlooked. We congratulate Mr. Denstone, and trust he may have a brilliant career during his stay amongst us.

The President of the Society, Professor Pressinger, took the chair at 8.15 p.m., and introduced Mr. Denstone to the audience. There was an unusually large attendance, and amongst those present we observed the following:—Professor Lewis, Mr Consul Baker, Mr Dinneen, Dr Scherrer, Mr Henry Cadmus, Mr John Sewell, Mr W Warden, Mr M L Munro, Mr A P Seedorff, Mr J Feely, Mr W G Parry, Mr Pearson, Mr C Im Thurn, Mr G B Ward, Mr T E Gormley, Mr W Campbell, Mr E Reydams, Mr A W Hutton, Mr T Shoobridge, Mr J S Shaw, Mr F Stearn, Mr Cuff, Mr Grimsditch, Mr A Ross, Mr G Robertson, the Rev. J F Thompson, Mr W C Bertuch, Mr E March, Mr G B Ward, Mr J. Robson, etc.

At the conclusion of the paper a cordial vote of thanks to Mr. Denstone was proposed by Professor Pressinger; and in closing the evening's proceedings the President said that it was hoped that members who might be preparing lectures or papers would give as much notice as possible to the Secretary, in order that arrangements might be made for their delivery during the session.

The Committee of the Society, with Professor Pressinger at its head, is evidently doing its work well.

THE FAR SOUTH.

("A WARNING FOR *Roaming Correspondents* AND EDITORS.")

(*Continued*)

It must be borne in mind that ships can pass only at high water, so that one entering has to watch for a favourable wind, whilst one outward-bound has to await a wind not only suitable in direction but also of sufficient force to enable it to stem the incoming current with such rapidity as to clear the bar before the tide again commences to fall. Such are the causes which for the last 17 years have been stagnating the trade of the Chubut. Instances are known in which ships have had to remain no less than three months waiting for a fair wind to heave anchor; whilst, on more than one occasion, vessels have been wrecked beneath the very eyes of the colonists, with a deplorable loss of valuable lives and cargo.

In addition to all this the poor colonist has the pleasure of paying 25 dollars per fannega for freightage of his wheat to Buenos Aires.

Next I come to other statements which, if not deliberately untruthful, can only be due to profound ignorance. Conesa is not 60 leagues above Patagones, but about 34. Instead of the first (or most easterly), it is the last of four colonies, which the present Governor of Patagonia proposes to form. Thus, on the south bank of the Rio Negro three colonies have lately been delineated; one is what is known as the "Potrero Cerrado," situate fiv leagues above Patagones, a second about 23 leagues above this and the third in Conesa, distant from the last-named some five leagues.

On the north bank of the river also a colony is projected, at a distance of 23 leagues from Patagones, and about five or six from the small township of Guardia Pringles. On these same grounds this year have been grown immense quantities of fruit, viz., grapes, peaches, figs, apples, quinces, melons, water.melons, pumpkins (many individual specimens of these have turned the scale at 50lbs.), cucumbers, tomatos, potatos, "fisty and mealy," onions (finer and larger I have never seen), lettuces, cabbages, maize and numerous other vegetables; whilst in Chubut, in the middle of the summer, viz. in Feb., such things were not to be had for money. Again, at that distance up country (60 leagues) we have a valley twice the size of the Rio Negro valley at Conesa. This is not exaggeration; it is absolutely and wholly false. From the Cordillera to the Atlantic the Chubut possesses no valley at all to be compared in extent with the fore part of the Rio Negro. And this I say advisedly, having followed the course of the Chubut from the spot where it commences to be worthy of the name of river right down to its mouth. At about seventy leagues from Rawson does indeed exist a valley some twelve leagues long, and about two leagues wide, which in my opinion is the pick of Chueran camps.

"At equal to Choel-e-Choel we should be at the Andes." In our march southwards we came on the Chubut river 80 leagues above Rawson. Subsequent travels proved that to reach the Cordillera we still had to traverse some 40 leagues. From Patagones to Choel-e-Choel the distance by an excellent road is 74 leagues.

And then after his valley of twice the size and imaginary rivulets for flannel factories—the rivulets being as non-existent as the mills—he naively adds—"in extent of bottoms and plateaus we cave in to the Rio Negro." Is this a contradiction, or only another "perplexity of description." "As to the Limay, we could people that territory from where we are by an offshoot of yonng men." No one having the vaguest idea of the extent of the said territory and wishing to retain the reputation of a practical and sensible man, could give utterance to so palpable an absurdity.

It is a waste of time to refute such haphazard statements, so I leave your "O.C." on the subject, with the recommendation that the learned board of examiners are accustomed to give to plucked students, viz., "that they resume their studies for another six months."

Two points more and I have done.

[Your "O.C." confesses, "half the colonists are in full swing, wheat-growing; two-thirds of the remainder are engaged in making sure works for the future; and the remainder, scraping a maintenance, will be compelled to do likewise." Do you, Mr. Editor, consider this a satisfactory state of affairs—one-half the population earning nothing, and one-sixth "scraping a maintenance," or, in plain English, half starving.

In Rawson I was told that there were 150 men who wished to try their fortune in some other part of the Republic, Bahia Blanca, Rio Negro and Las Manzanas, being the localities about which most inquiries were made.

(*To be concluded*)

PARIS LETTER.

(*From our own Correspondent.*)

It is quite refreshing to read a letter from a Frenchman in Tonkin, not written in the Cambyses vein. From such I glean that the poor inhabitants' visages express only dread. They are slaves, but exchanged for new and different masters. The climate is not fatal to Europeans, as delicate ladies arriving pale and cadaverous from Cochin China, quickly became plump and regained roses in their cheeks. Further, the soldiers revealed no abnormal campaign ills, though fighting and marching a fortnight up to the waist in water. The Delta is more densely populated than Belgium; as many as a dozen villages can be counted within a square mile, and the inhabitants cultivate the soil, which is of a marvellous fertility, like kitchen gardens. A light skim plough drawn by a single bullock, represents a strong farmer and high farming. The fields are so many pools and the soil is best worked when in a state of dough or mud. The rice is sown apparently on water. "Cast thy bread upon the waters for thou shalt find it after many days." It is surmised that the eight whites who lead the Black Flags to "Death or Glory", are Americans, as the defence works constructed by the enemy resemble those current during the war of Secession.

The soil of Tonkin is a rich, hard clay, and when it rains, or when the fogs distill into gentle showers, a slime is formed, as slippery as a glazed frost, so that a soldier when he unwillingly slides with his 100 lbs of baggage, flops down like an unhorsed Knight in armor. Alpenstocks are a necessity in the "plains." The Annamite soldiers are employed as scouts; their long hair is knotted up into a Chignon, and kept in position by means of a back-comb; the crown of the hat is fastened to the chignon by means of a string of colored ribbon. and the latter falls down the back, like the *Suivez moi jeun homme* streamers formerly patronized by ladies. The Turcos believing these *braves* in jupons to belong to the fair sex, at first hesitated to march to glory with them.

The "Tonkin Volunteers" are more feminine still in their equipment; they have only a petticoat and a blue apron; their hat is an inverted tun-dish, with the minaret painted red, white, and blue. They have no shoes, that which is viened as an advantage. The peasants it appears allow no fertilizing matters to be lost.

The rich and poor dress alike; that is the only way to "do" the tax extortioner. The peolpe do not know now what god to devote themselves to, the Mandarins, the Black Flags, and the French arriving in succession. They are a loyal people, as on their pagodas they 'construct' figures of 'cranes', said to live 1000 years, and of 'tortoises' considered to have six times that longevity, to symbolize the wish that his Majesty may live as long. It is said that in the attack on Son Tay, a single regiment, stationed at the South Gate, would have prevented the enemy escaping to Bacninh; perhaps a similar precaution would have captured the foe at Bacninh, and rendered a march on Hong Hoa unnecessary. Did the French really want to capture them? By still pursuing, still achieving, France has extended her grip over Tonkin, and by running up the little bill that the Celestials must either pay' or cede a frontier province, thus the break up of the Empire, and the laying a chief corner stone of the new realm, French-China.

The death of the savant Dumas, considering his great age, 83, can hardly be called a loss for science. His work was finished. In science it may be truly said, he touched nothing that he did not adorn. He was a self-made man, worked up from an apothecary's assistant in his native town of Alais, to be "on Fame's eternal bead roll filed." He was lucky in his marriage, lucky in attaching himself to the fortunes of Napoleon III. He was a tremendous worker; he was an excellent speaker, and rumor says, he adopted the Demosthenic remedy against a stammering he had in early life. He had a hasty temper, was intolerant towards opponents, and never accepted a franc for all his discoveries in industrial chemistry.

The inauguration of the statue to Gambetta in his native town of Cahors enables one to measure the distance between the giant and the pigmies. It was his famous triumphal visit to Cahors that was employed by his enemies and rivals to sap his popularity. Of Gambetta it may be truly said, "Nature formed but one such man."

Murders and robberies are again painfully numerous in the suburbs. The victims are first strangled. M. Grevy has done well to sign the execution for the Douai parricide, who played cards till ordered up to march to the scaffold. The inhabitants of the townland where he committed the crime, petitioned not only to have him executed, but to be guillotined before them.

A certain gentleman has the reputation of being so lucky that it is said, if he fell from a fifth story window, he would drop on the head of his mother-in-law.

SWEDISH EMIGRATION.

To the Editor of the *Standard.*

Sir.

Having read your two articles with this heading and being a countryman of Mr. Smith, I don't see any reason for mixing his name up with this subject.

The said gentleman is a 'self-made' man and well known and respected in his country; but he himself would, certainly, be the first person to express astonishment to see what extraordinary feats are attributed to him. I have forwarded cuttings of your articles to the principal newspapers of Sweden, and I can assure you that it will cause some amusement there on learning Mr. S. is alleged to have "asked the Government of his country to get together twenty learned men, in order to take observations among the icebergs of *Switzerland*!"

Rather startling news for the *Swiss* people also!

The fact is that he defrayed, out of his own pocket, the expenses for sending a scientific expedition beyond the Polar Circle, to the island of Spitzbergen. The other "benevolent" works ascribed to Mr. S. are depicted in the same motley manner of mixing the true and the fantastic together. I suspect you have got your information from Franco-Argentine sources, as the product bears evidence who the master is. Mr. Smith has deserved well of his countrymen, by showing them how to extend their export trade and how to fight competitors with their own weapons; and it was chiefly owing to his exertions that Sweden managed to sign a better Treaty of Commerce with Spain than even Germany did.

Kindly take my advice, Mr. Editor, to stick more to your subject, as I am sure you could, in a great measure, favour the colonization of parts of this country by my countrymen, by intrepidly pointing out to its government the necessity of following in the footsteps of the United States, in the matter of land grants and homestead laws.

There should be no half-hearted, semi-political fears entertained in this respect by those who rule this country. The Swedes of the present times are to the front only in peaceable pursuits, just as their forefathers were to the front, chiefly in military ones.

I remain, Sir,

Yours truly,

Con Amore.

EDITOR'S TABLE.

The French mail steamer Amazone sails this afternoon for Europe. Mail bags close at 1 p.m.. or rather at one o'clock, according to the new Universal Meridian way of reckoning, which will abolish those time-honoured letters a m and pm, and one o'clock in the morning will be called thirteen o'clock.

Havas had an important cablegram on Thursday. The Government at home has decided to send another corps d'armee to the Soudan, with everything necessary (lots of Indian cavalry we hope included) to give the Mahdi his quietus. The divinity that shapes our ends is fast shaping for Egypt annexation to the British Empire. So much the better for Egypt.

The news from Europe by the Perseo is important. Sir Evelyn Baring had been summoned from Cairo to London to confer with the Government. The Pope's Encyclical against the Freemasons caused a great sensation in France. The three Emperors were expected to meet at Warsaw. The greatest sensation had been caused by the conduct of the Russian Ambassador at Constantinople, shamming illness and refusing to assist at the reception of the Austrian Crown Prince. England has declared that, at the approaching Conference about Egypt, the Powers must strictly confine themselves to its finances, as she will not allow discussion on any other point. Several houses were thrown down at Colchester (England) by an earthquake. Nobody killed. Great coolness exists between France and England about Egypt, and the *Pall Mall Gazette* says a war is probable. Great fire at Port Said; four thousand Arabs houseless! (Query-tentless?) Explosion in Ship Street barracks Dublin, but little damage done.

The children attending St. John's Anglican Church Sunday School, were most fortunate in having such lovely weather for their annual pic-nic on Thursday. They all attended matins at St. John's, at 8.45, which they entered preceded by their band playing the hymn "Onward Christian soldiers." After service they, accompanied by their teachers and friends, took the train to the Tigre, where a most pleasant time was spent. Head-quarters were fixed at the Paseo Victorica, on the banks of the Lujan. Short excursions were made on the river. Some went to visit the depots and laboratories of the torpedo department of the Argentine Navy, where Colonel Warren very kindly explained all the *materiel* employed in modern torpedo warfare, and amused the youngsters by giving galvanic shocks to as many as pleased. After boys and girls' racs in the Alamida, and the distribution of prizes to the winners, all returned to town at 6 p.m., and proceeding to the school-room, the Rev. W. Roberts returned thanks for the enjoyments of the day, and the children, after singing the Doxology, dispersed to their respective homes, tired but happy.

The bachelors' ball at Rosario was a great success. The saloons of the Olympo theatre looked like fairy-land, and over three hundred people were present. The committee, composed of Messrs Daniel, Sheridan, Agar, Dickson and Watson, were congratulated on all sides. Rosario never saw such a ball before.

The Revd. Father Purcell requests us to state that, owing to the requirements of other parts of his mission, he is obliged to suspend his customary visits to Mr. Mahon's chapel till further notice.

The holiday (Thursday) was gloriously fine, and all the world and his wife turned out to enjoy themselves. The races at Palermo were largely patronised; so was "le Bois," so was everywhere and everything in the shape of amusement. The theatres were crammed at night, especially the Colon, although Ferrari gave his patrons another dose of the Huguenots. Several of the papers are also writing their hair off about this opera, as if it were something new, although the public, High and Low, has it off by heart to the last scrape of a fiddle. The operas for the May fetes are Traviata, Favorita, Aida and Rigoletto.

The preparations for the national jollification to-morrow are all complete. Mr. Cassells's pillar for his Electric Moon is ready for work, and will debut to-night. The mistake has been made of placing the fire-work platform in the centre of the Plaza instead of at one end; and we hope this wont lead to an increased number of victims this year, as the crowd is certain to be larger than ever before.

The ceremonies in connection with the opening of the new convent of the Sacred Heart, on the Flores Road, commence to-morrow at 9 a.m. Most of the leading families of the city will be present. The classes of the school will open on Monday.

We deeply regret the death of our highly esteemed colleague Dr. Adolfo Rawson, editor of the *Oeste* of Mercedes and son of the eminent statesman Dr. W. Rawson. The deceased gentleman was in the prime of life, and has left a young widow and several children.

Telegrams from Montevideo say that the condemned murderers Santana and Correa showed pitiable cowardice when put in 'capilla' at Paysandu, and it was thought they would have to be carried to the place of execution. The cruel are ever cowards.

The Patagonia's European mails are expected here this morning.

The National Government has asked Congress for a pension of 400 Nats. per month for Dr. J. B. Alberdi. It is well merited, and will, no doubt, be cheerfully granted by the national representatives.

A young amateur sportsman named Fuentes was killed on Sunday at Moron, through both barrels of his fowling piece going off accidentally, the contents mutilating him so horribly that he died in an hour.

General Sarmiento is expected here to-day on his return from the provinces. The Zoophiles will go "en masse" to the station to welcome their President.

We received the following yesterday:—

Dear *Standard*

I don't agree with "Philologus", (see to-day's *Standard*). 'Saludar' is 'to salute.' 'To welcome' is 'dar la bien venida.' When 'Philologus's tailor touches him on the shoulder in the street with 'that small bill' in his pocket 'Philologus' will 'salute' him, if he be civil, but he won't 'welcome' him.

As to 'welcome' and 'home' being 'old German' words and not genuine English, they are neither, but Asiatic, as are all European races in their origin. We must draw the line somewhere, otherwise, who can assure 'Philologus' that he is not descended from the 'heathen Chinee.'

Yours

Philocactus.

On Wednesday night the nuptials of Miss Lola Gaudencio and Mr. Alfred Newell were celebrated. After the ceremony there was a sumptuous supper, followed by a magnificent ball. The presents to the bride were numerous and costly.

Carlo Bros. give two grand 'funciones,' day and night, both to-day and to-morrow. The 'Funcion de Moda' last night was one of the best given, and to a large audience.

We are requested to state that the morning service at the Scotch Church to-morrow will be for children, and there will be no Sunday School.

Dear Sirs,
I have much pleasure in stating that I cured all my flocks this season with the "Golden Leaf Extract" and found the result highly satisfactory, and in future do not intend to use any other dip.
After first using the "Golden Leaf," I found it such a perfect cure for Scab that I recommended it to several of my neighbours who have all proved it equally good.

DUNDRUFF AND OTHER DISEASES of the Head inevitably tend to destroy the hair's vitality. The best known remedy for these herpetic diseases is the Oriental Tonic, which causes them to dissapear speedily.
But this is not all, it invigorates and regulates the cuticle in such a manner that it precludes a recurrence whilst its use is continued. The obstructed pores stopping perspiration is the cause of the falling of the hair in many cases, and such torpidity cannot exist when the surface vesicles are invigorated by the active vegetable tonic.

Cedulas A	100¼
Cedulas E	89⅜
Cedulas F	85⅛
National Bank Shares	146⅝
Scrip	59

The balance-sheet of the National Bank has made an excellent impression on the market, and a firmer feeling was evident this morning. The increase in the circulation, deposits, reserve and advances shews that the operations of the Bank are extending in all directions, and this expausion is the subject of much remark. Over 1,000 shares were sold for the end of the month; rates opened at 146 and closed firm at 146⅝. Immediately after the close of official hours the stock went up and operations were effected at 146⅞. One thousand shares were sold for the end of June at 148½-⅛. Operations are passed over to next month at from 1½ to 2$ per share and at several rates. On the whole the line of the market has much improved but the firmness is not a buoyant rise, and there is a want of elasticity about the speculation.

The Scrip of the National Bank is much neglected. There are few buyers; these offer 59, but there are no sellers at this rate. There is at present no market for the Certificates, and the feeling is neither one way nor the other.

The Cedula market continues paralyzed. Twenty thousand Series E were sold for the end of the month at 89⅜. A few thousand Series F were sold at 85⅛ for cash and for end of the month. The weakness and dull aspect of Series E attract the attention of all. Here we have a stock gradually moving off the market by the regular process of amortization and heavy remittances to Europe drooping in spite of these facts, which should increase its value. The speculation, formerly so active, is now dead; there are very few Series E in the speculative atmosphere, and this may account for the dull condition of the market. Speculation, it is expected, will revive in winter; at all events the cheapening tendency of the money market should increase the value of the stock.

Fair amounts of exchange were passed today at 47½-9/16; some operations were also effected at 47⅝. In francs some business reported at 5.00-5.01 on Paris and France and at 5.01-5.01½ on Antwerp. Both francs and sterling are scarce.

The money market continues very easy; discounts are quoted at 6½ to 7 o/o. Government Bills continue in demand, but there is little doing as they are scarce.

In spite of the apparent lull in the land speculation there is much more doing in land circles than supposed. One well-known landholder has sold several properties in the National Sections. The best barometer, nevertheless, of what is going on in land is the registry of sales at the notary's office.

The five leagues of land in Gainza, advertized by Messrs. Bullrich, have been sold privately at about the same price they cost the owner. This property is favorably situated about 80 leagues West of B. Aires. The large properties of Salas, Amados and others are not far off, and the camps are said to be excellent.

The following were the sales at the ring during official hours:—

Cedulas—
For cash A 4,000 at 100⅛
For May 31st E 20,000 at 89⅜
For cash F 9,000 at 85⅛
For May 24th F 2,000 at 85⅛
For May 31st F 10,000 at 85⅛
Sales, 45,000
National Bank Shares—
For May 31st 1,100 at 146½-⅛-⅝
For June 30th 1,000 at 148½-⅛
Sales, 2,100

The message of the Santa Fé Government to the Chambers states that the 66 colonies of the Province cover an area of 514,387 squares, representing a value of $41,873,891. The exports of the colonists are estimated at seven millions patacons. The growth of the colonies is steady, and new colonies are being started in the North and South.

The Casado Railway is already giving most satisfactory returns. The passenger traffic of the first five months of the year shews 10,959 passengers. The cargo traffic shews 1,700,500 kilos of iron ware, wire, &c., and 8,906,000 kilos of grain conveyed to and from the colonies. The returns for the first quarter were:

Gross returns	49,240.58
Expenses	21,264.98
Net	27,975.60

The returns of the Rosario Custom House for the month up to date exceed $250,000.

The Governor of Entre Rios has bought from Messrs. Devoto & Co. their fine estancia on the Diamante at the rate of 20,000 m/n per league. The property comprises ten leagues of land and is one of the finest in Entre Rios.

Telegrams from the Mount announce the arrival of the representative of a Syndicate of European bankers; the arrival of this gentleman is supposed to be connected with the Banco Uruguayo scheme.

The great news of the day is that Mr. Leonardo Pereyra, one of our leading estancieros, has shipped six "mestizo novillos" frozen by Haslam process for the London market. Each novillo gave a weight of 700 lbs. of marketable beef and the Zenobia takes the consignment to London. The results of this first shipment of frozen beef are naturally looked forward to with much anxiety and if successful may prove the prelude to an active export of Argentine beef. Mr. Leonard Pereyra deserves much praise for his enterprise since he has stepped out of the "laissez-faire" groove of estancieros. The beef of mestizo animals in this country is excellent and will find a ready market abroad of this there is little doubt. The native cow, meantime, is doomed; every year we witness a greater depreciation of the native stock and a steady rise in mestizo cattle; the export of Argentine beef will hasten the disappearance of criollo cattle, and estancieros will be obliged to improve the blood of their herds.

Mr. F. Cook, of the firm of C. S. Roberts, took leave of his friends to-day; he leaves in the Dalton. His legion of friends expect to welcome him back three or four months hence.

The speculation in La Plata sites and chacras continues very active; millions are being sunk in the new capital, and the speculation is as brisk as ever. Twenty seven auctions of La Plata lands have been held in this city in the last six months this shews; actity.

Exchange on Montevideo ruled very hard to-day; the rates are 2½ to 2¼ o/o; few drawers. Bankers ask 3 o/o, whether bills or specie.

Large amounts were discounted to-day at the current rates; the market looks falling.

It is rumoured that the well-known Piñeyro's quinta at the Calle Gauna near Almagro will be bought for account of the Government. It will be turned into barracks and parade ground.

The exchange market was swept to-day; several banks took and few bills remain. One million francs were taken in one instance at 5.01. The mail will take much exchange.

Arrivals in the Once to-day were larger than usual; the market ruled dull. The South plaza shews no change.

The market ruled very bullish during afterhours and there was much activity in the liquidation parlor. About 2,000 shares were sold for the end of the month; the market closed firm at 148. The Scrip ruled in demand; buyers offered 60, but there were no sellers. Cedulas ruled exceedingly weak; there were sellers of Series E at 89½, but nothing done.

One hundred dollars were paid during afterhours for the option to ask for 500 shares at 150 at the end of the month.

A rumor was floated in the market to-day that another attempt would be made to make the full payment of the Scrip of the National Bank optional to the holder. The rumor looks speculative.

Mr. Hugh Mallet, H. M.'s Vice-Consul in Rosario, was welcomed to-day. He reports everything in Rosario progressing, and much activity in all circles.

The President of the Banda Oriental received a telegram on Monday from London stating that Unified Uruguayans had risen to 59⅛. This is a rise of 1⅛ in two days.

Telegrams from Rio announce a further fall in the rate of exchange on London; the rate is now quoted at 20. Sovereigns are quoted at 12$000. The Rio exchange market is very low.

The Montevidean money market is again very hard: "conformes" or best bills in the market are now discounted at 10 and 11 o/o, and 12 o/o even is spoken of. The Banks have restricted their discounts, and the squeeze is much felt.

The steamer Toro left the Riachuelo with several passengers and a full cargo of merchandise for Bahia Blanca.

The Argentine man-of-war Chacabuco has been ordered to Bahia Blanca; she will leave for that port with the Almirante Brown next week.

Telegrams from Patagones announce the safe arrival of the Argentine cruising squadron at San Juan, States Island, at the extremity of this Continent. A light-house has been erected on Point St. John; the light can be seen at a distance of 14 miles. The Argentine navy is not idle, but the Navy-office should extend these cruising expeditions to all points of the South. The Argentine Government should have war-vessels in all the Southern ports. The Almirante Brown, it is said, will soon start for the South also; she will stop some time at Bahia Blanca.

Telegrams from Montevideo state that a large part of the capital of the new bank has been subscribed for. The scheme, it appears, meets with favor in all commercial circles. The management of the new bank was offered to a party well known in River Plate banking circles. The Mount wants several banks more; if the Banco Uruguayo scheme proves successful, it will be a boon to Montevideo.

The Department of Engineers has drawn up a contract with the great Cockerill Company in Belgium for the supply of a large quantity of railway materials for the extension of the Tucuman Railway to Salta and Jujuy. It is remarkable to witness how all these important orders go to the Continent and the U. States; it appears that the great iron firms of Great Britain have too much work on hand. The Argentine Government applied in England for locomotives but was informed that their order could only be carried out in two years—the building of the locomotives was then ordered in the U. States. The Western Railway, the Central Argentine Railway and all the National Railways are expecting new locomotives from Europe and the U. States.

Advices have been received in the Navy-office announcing the completion of the surveys and buoying of the harbor of San Blas. These surveys were carried out by the officers of the gun-boat Constitucion; Commander Rivadavia, grandson of the illustrious Argentine of that name, took all the soundings personally; Lieutenant Oliva, second in command, Lieuts. Leroux and Lafuente took the angles. When Commander Rivadavia arrived in the bay two years ago he met with many difficulties and delays, which he overcame by building a fine centre-board which he called the Sharpie Union. On board this boat he took all the soundings which are more numerous and minute than those of the Beagle, marked on Fitz Roy's chart. After two years steady work, often interrupted by bad weather, Commander Rivadavia placed five buoys in the new channel formed in the process of time out of Fitz Roy's Middle and Little Gats; the surveys were being finished and preparations were being made for departure when Rivadavia discovered a broad, new channel with much deeper water running a little to the North-East; the buoys were immediately taken up and placed in the new channel, which has a minimum depth of 24 feet at low water and 30 feet at high water. Four buoys are lined along the left side of the channel as a vessel enters—a fifth one has been placed on Hog Islet to the right, and a splendid tower has been erected on Rubia Point, shewing the entrance of the channel. The Constitucion and her gallant crew will soon be up; they are expected about the end of the month. The Government should reward the hard work of the gallant Commander and his officers.

Charles' English Hotel
BOA-VISTA
TIJUCA
Rio de Janeiro.
WHYTE'S HOTEL, Tijuca, having been leased to M. Lafourcade of the Hotel dos Estrangeiros, Rio de Janeiro, the late manager (gerente) of Whyte's Hotel, Mrs. Charles, has with her husband taken the former "Hotel Victoria," Boa-Vista, and will re-open it on the 15th January 1884 as CHARLES' ENGLISH HOTEL.
It is situated close to the Green or Square called "Boa-Vista" on the very summit of the pass leading from Rio to Whyte's Hotel. It is a most salubrious position in the midst of beautiful mountain and forest scenery, has a bath with a plentiful water supply, very extensive grounds and is within five minutes walk of the fine waterfall Cascatinha in the forest of Tijuca.
Diligences to and from the termination of the Tramway (bond) pass the entrance to the Hotel twenty times a day.
It will be Mr and Mrs Charles' endeavour to give satisfaction to all who may honour them with their custom.

BANCO HIPOTECARIO
Esta abierto al servicio público todos los dias de trabajo desde las 10 de la mañana hasta las 4 de la tarde.
Presta sobre hipoteca con reembolso á largos plazos.
Por el valor del prestamo de cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.
El valor del inmueble hipotecado no debe ser menor de $f 2000 ni el prestamo menos de $f.500.
Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.
El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado á amortizarlo y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:—
Serie E.
Dura 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.
Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco. El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.
El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.
Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.
Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.
Las ventas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Junio y de 1 a 15 de Octubre.
El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las Cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.
El mismo Banco hipotecario recibe sus cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.
El deposito se admite desde una cedula de $f.50 que es el minimum de las que emite el Establecimiento.

A Derangement of the Liver
THE CAUSE OF DISEASE
IN THE
STOMACH, KIDNEYS, AND Nervous System.

Below will be found a brief summary of a Lecture upon the Liver, delivered before the Eclectic College of Medecine, by

Dr. J. Haydock

The Liver has been known as the great blood-maker and blood-purifier of the circulation. From its size and spongy structure, it plays a most important part in the animal economy, as regards assimilation and nutrition. Food taken in the mouth and acted upon by the digestive organs of the stomach is converted into Glucose and Peptone, and in these forms enters the Portal vein. Here, by the action of the liver, these substances are converted into a form of sugar and pass out of the liver by a large vein, called the Hepatic vain, into the great circulation. The new material now formed serves two purposes: viz: the maintenance of heat in the body and assisting in the cell growth of the system.

Dr. Murchison says "The composition of bile and its secretien is very complex. It is constantly being secreted by the liver, and, increasing suddenly before eating, gradually decreases as soon as the appetite is satisfied and feeding ceases." Now, if this most important organ of the body becomes torpid, or the passage of bile interfered with, emaciation and disease ensue. I note eight marked peculiarities that now occur, and which we all know off:—

1. The patient complains of a feeling of weight and fullness of the stomach.
2. Distension of the bowels by wind.
3. Heartburn.
4. A feeling of weariness, pains in the limbs and great sleepiness after meals.
5. A bad taste in the mouth, especially in the morning, and furred tongue.
6. Constipation, with an occasional attack of diarrhœa.
7. Headache in front of head.
8. Depression of spirits and great melancholy, with lassitude and a disposition to leave everything for to-morrow.

All of the above symptoms go to show functional derangement of the liver; and now comes the great importance of avoiding any error made as to the condition of the patient. He should immediately provide himself with a Liver Stimulant, the most common form of which is a Pill. Daily experience shows that this, when the Pill is compounded properly, is the readiest mode of inciting and promoting the action of the Liver, and can be almost always relied on. I have devoted many years of my life, as many of you now before me know, to compounding a Pill that will act readily and systematically as a Bilious remedy. I do not believe in great purgatives, and therefore have made a Pill, one of which is an active and thorough dose. I have called it

Dr. Haydock's New Liver Pill
(SUGAR COATED)
One Pill is a Dose! One Pill is a Dose!

For all Diseases of the Kidneys, Retention of the Urine, Dr. Haydock's New Liver Pills are a perfect cure. One Pill will satisfy the most skeptical.

For Female Diseases, Nervous Prostration, Weakness, General Lassitude, Want of Appetite and Sick Headache, Dr. Haydock's New Liver Pills, will be found an Effectual Remedy.

They are universal in their effects, and a cure can almost always be guaranteed.

Each vial contains Twenty Pills. One Pill is a Dose. Price Twenty-five cents.

For sale by all Druggists.

Every Pill is Sugar-Coated. If your druggist does not keep them, we will mail them free to any address on receipt of 25 cents. Five vials for $1.00. Buy at once. Do not Deal.

CAUTION—To secure the genuine Haydock's Pills, observe that the signature of J. H. Francis, Agent for the United States, is written on every dozen package. Purchase none without this.

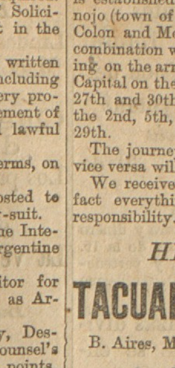

As Dr. Haydock's Liver Pills are entirely different from the 212 kinds now in the market any skeptic can have a sample bottle sent him free on receipt of his name and address.

EDITOR'S TABLE

(Continued from 1st page)

King Frost is asserting himself in the Interior as well as here. Advices from St. Luis report the thermometer as *ten* degrees below zero in some parts of that province, and the 'lagunas' etc, with fifteen centimetres of ice on their surface.

We call general attention to the advertisement in another column from the British Cemetery Committee. A Municipal licence will henceforward be indispensable for every interment.

Bonsoro, the Rosario bookkeeper, who has been arrested for forging the name of his employer, Mr. Ross, to bank cheques, thereby obtaining some 4000 pats, is a gentleman of the Lamothe pattern. He lived like a Sibarite, and the choicest wines, etc, were found in his residence.

There is such a scarcity of "hijos del pais" to recruit the police force that the rule against admitting foreigners to the force has been repealed. The force will be none the worse for a good sprinkling of the foreign element.

The Director de Limpieza should order his street sweepers to do their work in silence, at least when they commence at 5 a.m. Their shouts and laughter, sighs, cries and curses, prevent people from sleeping, and are enough to kill sick people. Another intolerable nusance is the trumpet blowing and drumming in all the city barracks at the break of day. Both abuses should be put down summarily. They are insufferable.

Pildoras Holloway.

Las virtudes de esta admirable medicina son especialmente eficaces para expulsar de la Sangre toda impureza. En los casos de debilidad, ella es incomparable, al paso que cura radicalmente las Indigestiones, y los desordenes generales del Higado, del Estomago, y de los Intestinos, restableciendose, como por encanto, el vigor y la salud normal, dichas Pildoras remueven asimismo las dolencias que suelen aflijir a las Mugeres al llegar estas a la edad critica.

Unguente Holloway.

Este incomparable Balsamo sana los Males de Piernas y de Pecho, las Llagas Antiguas, y aun esas Ulceras cuyo orijen no conviena mencionar en un anuncio publico. Para todas las Erupciones cutaneas no hay remedio igual al Unguento Holloway, al que millares deben la salvacion, tanto de sus Brazos y Piernas como de su existencia.

Antes de comprar, examinese con mucha cautela el Rotulo en el Bote o la Caja, para cerciorarse si esta la direccion de 533 Oxford Street, London, pues si no esta, entonces se trata de perpetrar un descarado engaño.

☞ Se invitan a las personas que sean defraudadas por los vendedores que expenden 'Las Pildoras y el Uguento de Holloway' falsificadas para que se sirvan al comunicarme los pormenores, e inmediatamente para formalizar procesos legales contra los Ofensores, y recompensare liberalmente a los Delatores por el trabajo que se tomen, comprometiendome a que no haya trascendencia de sus nombres.

Dysentery, Cholera Fever, Ague Coughs, Colds, &c.

Dr J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests too often fatal diseases Diphtheria Fever, Crup, Ague.

CHLORODYNE acts like a charming Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer Toothache, Meningites, &c.

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 22, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE S CHLORODYNE in Diarrhoea, and Dysentery, Spasms, Cramps, Neuralgia, the Vomitting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

CAUTION—None genuine without the words 'Dr J. Collis Browne or the Goverament Stamp. Overwhelming medical testimony accompanies each bottle.
